

---

# Homework Policy

---

1. **Organization**, completeness and presentation **will be** significant grading criteria—the correct answer is **insufficient** for receiving full credit. A clear, complete and unambiguous presentation of your methods and logic are required for each problem.
2. The assignments will be placed on the class website. Note the date next to the assignment is the **due** date.
3. Assignments are due by the **beginning** of class.
4. Homework turned in after the **beginning** of class will receive 2/3 credit.
5. Homework turned in after the assignment is graded and returned to the class will receive **no credit**.
6. Homework **solutions** will be available in the **library** when homework is returned.

*7. Homework assignments should be **folded lengthwise**, such that the **right half of the back page** is exposed. Your **name, course, and assignment number** should be written at the top of this exposed section.*
